# Not an advisory firm.

## A business ecosystem.

Boran & Co. Group is a Bratislava-based group of operating companies active across energy, raw materials, AI, healthcare, drone technologies and food trade. We are commercially engaged and investment-oriented.

We are present only in businesses of strategic consequence — sectors where committed capital and active operation produce real, durable change. The Group does not pursue diversification for its own sake.

### 01

#### **Commercially Active**

We trade, execute projects and build real business. We do not only advise or facilitate introductions.

### 02

#### **Investment-Oriented**

Our Group participates with skin in the game alongside our partners — not as a passive intermediary.

### 03

#### **Internationally Connected**

From Bratislava to Beijing, Dubai, Delhi and São Paulo — real relationships built through real commercial activity.

*“Present only in businesses of strategic consequence — sectors where our involvement produces real, lasting change.”*

FOOD & BEVERAGE

#### Craft Products Trade s.r.o.

Food and beverage trade and production — import/export flows across CEE and China corridors.

IČO: 51 130 874

# We Invest. We Operate. We Represent.

Built around three roles of equal standing — none more important than the others.

## 01

### We Invest.

#### PRINCIPAL INVESTOR

We commit our own capital to industrial and commercial projects of strategic consequence. We are principal investors — not advisors, and not passive financial investors. We hold positions for the long term.

- Principal capital deployment
- Long-term position holding
- Industrial & commercial projects
- Full lifecycle involvement

## 02

### We Operate.

#### ACTIVE OPERATOR

We hold, build, and run a portfolio of operating companies, each with a defined sector mandate. The Group's four subsidiaries are operated, not merely owned. We engage directly with operational realities.

- Portfolio of operating companies
- Defined sector mandates
- Board-level involvement
- Direct operational engagement

## 03

### We Represent.

#### AUTHORIZED PARTNER

We represent international principals in Central Europe through official partnerships, joint ventures, and authorized distribution. We provide local presence, regulatory familiarity, and operational capacity.

- Official partnerships
- Joint ventures
- Authorized distribution
- Local presence & regulatory familiarity

# Sectors where we hold positions.

We invest where we have operational understanding, regulatory familiarity, or established international partnerships.

<p><b>Heavy Industry &amp; Manufacturing</b></p> <p>Direct investment in industrial production and the wider manufacturing supply chain.</p> <p>01</p>	<p><b>Energy — Traditional &amp; Renewable</b></p> <p>Engagement across conventional energy sources and renewable power generation.</p> <p>02</p>
<p><b>Chemicals &amp; Petrochemicals</b></p> <p>Investment and trade across the chemical value chain — from base chemicals to specialty products.</p> <p>03</p>	<p><b>Pharmaceuticals &amp; Life Sciences</b></p> <p>Healthcare and pharmaceutical opportunities in Central Europe — via Europa Pharmaceutical s.r.o.</p> <p>04</p>
<p><b>Food &amp; Beverage</b></p> <p>Manufacturing, sourcing, and international trade through Craft Products Trade s.r.o.</p> <p>05</p>	<p><b>Artificial Intelligence &amp; Technology</b></p> <p>Applied AI solutions for enterprise and industrial use — via Vanadium s.r.o.</p> <p>06</p>
<p><b>Drone Technology — Civil Applications</b></p> <p>R&amp;D and deployment of civilian drone technologies — via Sky Drone Technologies s.r.o.</p> <p>07</p>	<p><b>International Trade &amp; Distribution</b></p> <p>Cross-border commercial flows across all major economic areas.</p> <p>08</p>

# From first conversation to long-term partner.

Four steps — direct, practical, and consistent throughout.

**01**

## **Validate the Fit**

We assess the product, project or mandate for real potential in the target market — honestly and quickly.

**02**

## **Open the Right Doors**

We identify the right buyers, investors or channels — using established relationships, not cold outreach.

**03**

## **Structure the First Move**

We agree on a clear cooperation model: representation, pilot trade, sourcing lane or project dialogue.

**04**

## **Scale with Execution**

We follow through with meetings, commercial coordination and sustained relationship building.

### THREE FORMS OF ENGAGEMENT

## How we work with international principals.

### **Official Partnerships**

Long-term commercial alliances in which Boran & Co. acts as the named regional partner of an international principal.

### **Joint Ventures**

Co-owned operating entities for capital-intensive industrial and commercial projects requiring committed local presence.

### **Authorized Distribution**

Exclusive and authorized distribution of international products and services across Central European markets.

# BORAN & CO

Group

*“The strongest partnerships are built on mutual seriousness,  
practical execution, and shared long-term interest.”*
